

Presenting our partner in India:

Cape Electric Pvt Ltd – Advancing National Electrical Safety

For two years, we have collaborated with our Indian representative, **Cape Electric Pvt Ltd**, to enhance hospital electrical safety nationwide. CAPE is an experienced electrical engineering company that strongly advocates electrical safety awareness and actively educates professionals. They campaign for higher safety standards, introducing the latest **EU regulations and standards** and our **MEV®-8 insulation level monitoring system** at national events and training sessions.

In the picture: Team Cape Electric in the ELECRAMA, the largest standalone show in the electrical and allied equipment industry and also the largest T&D show in the world. Picture taken by Cape Electric.

Despite the challenging starting point, CAPE is dedicated to improving electrical safety and saving lives. They are raising knowledge levels among electrical professionals and hospitals nationwide through extensive training and awareness efforts.

CAPE offers **Medical IT Systems** tailored for **Group 2 hospital facilities** as part of their commitment. These systems provide advanced protective measures, integrating our **MEV®-8 insulation monitoring equipment**:

- **Medical Insulation Monitoring Device MEV-8 (MED-IMD)** (IEC 61557-8)
- **Insulation Fault Location System FI-8 (MED-IFLS)** (IEC 61557-9)
- **Protective Conductor Continuity Monitoring LC-8**

With over **27 years of industry leadership**, CAPE is a respected name in electrical engineering, known for its expertise and high-quality solutions. Their portfolio extends beyond hospital safety to **lightning protection, earthing, and EMP/HEMP shielding solutions**, all built on state-of-the-art technology and decades of experience.

CAPE is a **strong advocate for electrical safety awareness**. They regularly organize **seminars and webinars** to educate engineers and professionals on the latest safety practices, industry standards, and real-world case studies. These events serve as valuable platforms for sharing knowledge, preventing electrical hazards, and ensuring the reliability of critical systems.

– We are proud of our partnership with CAPE Electric. By fostering a culture of proactive safety and preparedness, **CAPE Electric is setting an example and a goal state globally** — especially for countries that still have significant work to do in improving electrical safety. Their efforts help hospitals minimize downtime, prevent fires, protect lives, and generate long-term savings, **says PPO-Elektroniikka's CEO Timo Ohtonen.**
